Good point that it could be interpreted this way -- perhaps better stated that we know they participated in the protests. We do not know who was responsible for the deaths.

Good question - I'll defer to [redacted] cc'd, given the CT angle.

(Added in OGC and OPA, as well as, FYI).

[] NE coords on the below paper, to include the earlier edits.

We have looped in ODNCS and others to ensure everyone has a chance to review given the urgency at which this is being requested.

For ODNCS - at this morning HPSCI coffee with DCIA, HPSCI members eagerly sought some sort of "white paper" they could use to reply to numerous media requests asking for comments on other inflammatory press articles regarding the Benghazi attacks.

HPSCI has asked for unclassified points immediately that they can use in talking to the media. I have been asked to provide a bit on responsibility. NE is pulling together the final product. In addition to other topics, NE will add material about warnings we gave to Cairo prior to the demonstrations, as well as material on warnings we issued prior to 9/11 anniversary. Please take a quick look to see if you believe that this is A) accurate and B) unclass.

For CTC/Legal, [] asked that I send this to you and anybody you think needs to see in OGC to make sure that nothing we are saying here is likely to impact any potential future legal prosecution.

Thanks

- The currently available information suggests that the demonstrations in Benghazi were spontaneously inspired by the protests at the US Embassy in Cairo and evolved into a direct assault against the US Consulate and subsequently its annex. This assessment may change as additional information is collected and analyzed and currently available information continues to be evaluated. - The currently available Information suggests that the demonstrations in Benghazi were spontaneously inspired by the protests at the US Embassy in Cairo and evolved into a direct assault against the US Consulate and subsequently its annex. This assessment may change as additional information is collected and analyzed and currently available information continues to be evaluated. On 10 September we warned of social media reports calling for a demonstration in front of the Embassy and that jihadists were threatening to break into the Embassy.
- The crowd almost certainly was a mix of individuals from across many sectors of Libyan society. The investigation is on-going as to who is responsible for the violence. That being said, we do know that Islamic extremists participated in the violent demonstrations.

Initial press reporting linked the attack to Ansar al-Sharia. The group has since released a statement that its leadership did not order the attacks, but did not deny that some of its members were involved. Ansar al-Sharia's

Facebook page aims to spread sharia in Libya and emphasizes the need for Jihad to counter what it views as false interpretations of Islam; according to an open source study.

- The wide availability of weapons and experienced fighters in Libya almost certainly contributed to the lethality of the attacks.
- The Agency has produced numerous pieces on the threat of extremists linked to al-Qaeda in Benghazi and eastern Libya. These noted that, since April, there have been at least five other attacks against foreign interests in Benghazi by unidentified assailants, including the June attack against the British Ambassador's convoy. We cannot rule out that individuals had previously surveilled the US facilities, also contributing to the efficacy of the attacks.
- The US Government is working with Libyan authorities and intelligence partners in an effort to help bring to justice those responsible for the deaths of US citizens.

I just had a convo with [redacted] and I now understand that these are being prepared to give to Members of Congress to use with the media.

On that basis, I have serious concerns about all the parts highlighted below, and arming members of Congress to start making assertions to the media that we ourselves are not making because we don't want to prejudice the investigation.

In same vein, why do we want Hill to be fingering Ansar al Sharia, when we aren't doing that ourselves until we have investigation results... and the penultimate point could be abused by Members to beat the State Department for not paying attention to Agency warnings so why do we want to feed that either? Concerned...

[REDACTED] in coordination with CTD, we have some concerns:

1. The accuracy of the sentence of the first bullet point which states "On 10 September we warned of social media reports calling for a demonstration in front of the Embassy and that jihadists were threatening to break into the Embassy." And— who is the "we" that is referenced?
2. We recommend editing the last sentence in the second bullet point to "That being said; there are indications that Islamic extremists participated in the violent demonstrations."

I just had a convo with [redacted] and I now understand that these are being prepared to give to Members of Congress to use with the media.

On that basis, I have serious concerns about all the parts highlighted below, and arming members of Congress to start making assertions to the media that we ourselves are not making because we don't want to prejudice the investigation.

In same vein, why do we want Hill to be fingering Ansar al Sharia, when we aren't doing that ourselves until we have investigation results... and the penultimate point could be abused by Members to beat the State Department for not paying attention to Agency warnings so why do we want to feed that either? Concerned...

There is massive disinformation out there, in particular with Congress. They all think it was premeditated based on inaccurate assumptions or briefings. So I think this is a response to not only a tasking from the house intel committee but also NSC guidance that we need to brief members/press and correct the record

CIA OPA, I know you're trying to move these fast so here's an initial round of edits. One small tweak in sentence 3 of bullet 1 for added clarity. Denis would also like to make sure the highlighted portions are full coordinated with the State Department in the event that they get inquiries.

HPSCI White Paper Talking Points for Use with the Media
14 September 2012

- The currently available information suggests that the demonstrations in Benghazi were spontaneously inspired by the protests at the US Embassy in Cairo and evolved into a direct assault against the US Consulate and subsequently its annex. This assessment may change as additional information is collected and analyzed and currently available information continues to be evaluated. On 10 September we warned of social media reports calling for a

demonstration in front of Embassy CAIRO and that jihadists were threatening to break into the Embassy. (this is ok as changed above...)

The crowd almost certainly was a mix of individuals from across many sectors of Libyan society. The investigation is on-going as to who is responsible for the violence. That being said, we do know that Islamic extremists participated in the violent demonstrations.

- Initial press reporting linked the attack to Ansar al-Sharia. The group has since released a statement that its leadership did not order the attacks, but did not deny that some of its members were involved. Ansar al-Sharia's Facebook page aims to spread sharia in Libya and emphasizes the need for jihad to counter what it views as false interpretations of Islam, according to an open source study.
- The wide availability of weapons and experienced fighters in Libya almost certainly contributed to the lethality of the attacks.
- The Agency has produced numerous pieces on the threat of extremists linked to al-Qaeda in Benghazi and eastern Libya. These noted that, since April, there have been at least five other attacks against foreign interests in Benghazi by unidentified assailants, including the June attack against the British Ambassador's convoy. We cannot rule out that individuals had previously surveilled the US facilities, also contributing to the efficacy of the attacks.
- The US Government is working with Libyan authorities and intelligence partners in an effort to help bring to justice those responsible for the deaths of US citizens.

All -

Sorry to be late to this discussion. We need to resolve this in a way that respects all of the relevant equities, particularly the investigation.

There is a ton of wrong information getting out into the public domain from Congress and people who are not particularly informed. Insofar as we have firmed up assessments that don't compromise intel or the investigation, we need to have the capability to correct the record, as there are significant policy and messaging ramifications that would flow from a hardened mis-impression.

We can take this up tomorrow morning at deputies.

Given the DOJ equities and States desire to run some traps, safe to assume we can hold on this until tomorrow?

All -

Sorry to be late to this discussion. We need to resolve this in a way that respects all of the relevant equities, particularly the investigation.

There is a ton of wrong information getting out into the public domain from Congress and people who are not particularly informed. Insofar as we have firmed up assessments that don't compromise intel or the investigation, we need to have the capability to correct the record, as there are significant policy and messaging ramifications that would flow from a hardened mis-impression.

We can take this up tomorrow morning at deputies.

☐ Here's a draft note to the DIRECTOR

Sir – We've tried to work the draft talking points for HPSCI through the coordination process but have run into major problems. Perhaps as a result of the afternoon teleconference, a number of agencies have been looped in. The White House cleared quickly, but State has major concerns. The Bureau cleared with a few comments but asked that Justice, which would handle any criminal prosecution, be brought in. It is evident that will not happen tonight, and Ben Rhodes has asked that this issue be reviewed tomorrow morning at the Deputies' meeting.

Additionally, Eric Schmitt of the NYT contacted us to let us know that he had spoken with Rep. Ruppertsberger, who had given him a readout of your session.

HPSCI White Paper Talking Points for Use with the Media
14 September 2012

- The currently available information suggests that the demonstrations in Benghazi were spontaneously inspired by the protests at the US Embassy in Cairo and evolved into a direct assault against the US Consulate and subsequently its annex. This assessment may change as additional information is collected and analyzed and currently available information continues to be evaluated. On 10 September the Agency notified Embassy Cairo of social media reports calling for a demonstration and encouraging jihadists to break into the Embassy.
- The investigation is on-going as to who is responsible for the violence, although the crowd almost certainly was a mix of individuals. That being said, there are indications that Islamic extremists participated in the violent demonstrations.
- The wide availability of weapons and experienced fighters in Libya almost certainly contributed to the lethality of the attacks.
- The Agency has produced numerous pieces on the threat of extremists linked to al-Qaeda in Benghazi and eastern Libya. Since April, there have been at least five other attacks against foreign interests in Benghazi by unidentified assailants, including the June attack against the British Ambassador's convoy. We cannot rule out that individuals had previously surveilled the US facilities, also contributing to the efficacy of the attacks.
- The US Government is working with Libyan authorities and intelligence partners in an effort to help bring to justice those responsible for the deaths of US citizens.

Sirs - Here is what we sent Heather Molino (Ruppertsberger).

It's very early, less than 72 hours since the attack. So there is a lot we don't know.

As time progresses, we are learning more, but we still don't have a complete picture of what happened. Fortunately we have the FBI leading the investigation of the attack. Regrettably they have all too much experience in these matters.

At this point, we are not aware of any actionable intelligence that this attack was planned or imminent. The intelligence community is combing through reporting from before and after the attack to determine the full extent of who was involved.

Libya is awash in weapons.- unconventional weapons were stored in unsecured locations across the country. Following the revolution, there are still many

well-armed militia remaining.

Since the revolution, we have some indicators al-Qa'ida and other groups are seeking to establish a presence in Libya. Remember some senior al-Qa'ida members such as Abu Yahya al-Libi came from Libya.

We are very cautious about drawing any firm conclusions at this point with regard to the identification and motivation of the attackers. The IC is working aggressively to this end, and the FBI will continue its investigation.

Unrest in the Middle East creates a permissive environment for terrorists. In the days and weeks ahead, we need to be especially vigilant in protecting our people.

Sir,

Here are the inter agency approved points for the Hill. They were worked through the DC this morning and were then shot out for final approval. As mentioned last night, State had voiced strong concerns with the original text due to the criminal investigation. That said, I understand NSS is working an all members briefing this coming week and these are a good starting point.

With your concurrence we will get them to our oversight committees and to leadership.

Libya:

- HPSCI request: Late this week, CIA Director Petraeus gave the HPSCI a "hots spots" briefing and was asked for unclassified talking points that its members could use about incident in Benghazi. (Apparently NCTC Director Matt Olson received a similar committee from a congressional committee.) The first draft apparently seemed unsuitable (based on conversations on the SVTS and afterwards) because they seemed to encourage the reader to infer incorrectly that the CIA had warned about a specific attack on our embassy. On the SVTS, Morell noted that these points were not good and he had taken a heavy editing hand to them. He noted that he would be happy to work with Jake Sullivan and Rhodes to develop appropriate talking points. McDonough, on Rhodes's behalf, deferred to Sullivan. It was agreed that Jake would work closely with the intelligence community (within a small group) to finalize points on Saturday that could be shared with HPSCI. I spoke to Jake immediately after the SVTS and noted that you were doing the Sunday morning shows and would need to be aware of the final posture that these points took. He committed to ensure that we were updated in advance of the Sunday shows. I specifically mentioned USOP as the one coordinating your preparations for the shows and also strongly encouraged him to loop in USOP during the process.

No mention of the cable to Cairo, either? Frankly, I'd just as soon not use this, then... NSS's call, to be sure; however, this is certainly not what Vice Chairman RUPPERSBERGER was hoping to get for unclas use. Regardless, thx for the great work -
